SUMMARY

Front-End Web Developer with 3 years of experience building modern, design-focused web applications using React, TypeScript, and JavaScript. Full-stack capable with Node.js and MongoDB, with a strong focus on UI quality, performance, and maintainable component architecture.

EXPERIENCE

- Full-stack Developer (Contract)**

02/2026 - 05/2026

Wedding Invitation ↗

 - Built a full-stack bilingual (Arabic/English) wedding invitation app using React, TypeScript, and i18next, with a Node.js/Express REST API and MongoDB for guest data persistence.
 - Engineered scroll-driven animations and a scroll-triggered video playback using GSAP, delivering a cinematic, interactive invitation experience.
 - Developed an admin dashboard with full CRUD operations, real-time search and filtering, and Excel export for guest management.
- Front-end Developer (Contract)**

11/2025 - 02/2026

Jusoor Events ↗

 - Built bilingual (AR/EN) events showcase website using HTML, JavaScript, and Tailwind CSS with cinematic UI and scroll-driven animations
 - Designed service-specific page layouts where visual styling reinforces each offering's unique identity
 - Implemented responsive design ensuring consistent experience across desktop and mobile devices
- Front-end Developer (Contract)**

10/2025 - 01/2026

SAAM TEAM Training Center ↗

 - Delivered responsive training platform showcasing certification programs with integrated contact form functionality
 - Developed component-based React application with TypeScript for consistent performance across devices
 - Collaborated with stakeholders to align design with brand guidelines and user requirements
- Front-end Developer (Contract)**

10/2024 - 12/2024

Fast Flow ↗

 - Built responsive portfolio featuring horizontal galleries and scroll-synchronized parallax effects
 - Implemented interactive sections for event production showcase using modern JavaScript animation libraries
 - Optimized load times and performance for media-heavy portfolio content
- Front-end Developer (Contract)**

08/2023 - 04/2025

Learning Corner ↗

 - Developed academic services platform integrating customized Msaq LMS embedded pages with brand design system
 - Maintained 20-month client relationship with ongoing UI enhancements and feature implementations
 - Delivered consistent updates while maintaining code quality and platform stability
- Full-Stack Developer (self-employed)**

12/2023 - 06/2024

Mohtaway - Digital Content Marketplace ↗

 - Developed a full-stack web application with subscription features using Node.js, Express.js (MVC), and MongoDB
 - Integrated RESTful APIs including PayPal for payments and Google Cloud Platform for content storage
 - Collaborated with UI designer to deliver responsive front-end interface

EDUCATION

Web Development · Faculty of Information Technology
Arab Open University - Bachelor

09/2022 - Present

SKILLS

HTML	MongoDB
CSS	Git & GitHub
JavaScript	Bootstrap
React	Jquery
TypeScript	Shadcn/ui
Tailwind CSS	RESTful APIs
GSAP	Google Cloud Platform (Storage API)
Node.js	Postman
Express.js	Claude AI

LANGUAGES

Arabic	Native	English	Fluent
